If you try to renew the registration of the vehicle after the Use by Date, a new certificate will be required to either re-establish the registration of the vehicle or renew the registration for 12 months, depending on the current type of registration. Except where your vehicle's registration has been verified to be cancelled, any portions of unused Green Slip premium may not be refunded until the Use by Date.

Suspension charges: If your registration is suspended due to a CTP payment default of the CTP premium, the CTP insurer will require you to pay the TfNSW charge to suspend the registration.

Cancellation Fee: No fee will be charged if you need to cancel this policy.

Claims settlement: if we agree to pay a claim under your policy, claim payments will include GST costs.

How is your CTP Price calculated? Your CTP Green Slip is calculated based on the information outlined above in "Your CTP policy details". These include the location where the vehicle is normally garaged (these zones are set by the State Insurance Regulatory Authority (SIRA)), the type of vehicle you drive and the purpose for which you use your vehicle. Insurers may also take into account factors such as the age of the vehicle, the age of the driver (s) / owners (s) and any motor insurance history. If any of these factors change, then your premium may change as a result. Your Green Slip premium may vary according to the vehicle owner / operator's entitlement to claim an Input Tax Credit (ITC) on this premium. The premium offered to you is calculated on the basis of the entitlement shown on your Green Slip.

Did you know? Your TfNSW commencement date will be the correct date even if it varies to the CTP commencement date.

If any of the information is incorrect, such as non-disclosure of the youngest driver, then you may be liable to;

- Pay any unpaid portion of the correct premium amount due.
- Pay up to \$5,000 where a claim is made and the money has been paid and costs incurred by Allianz.
